Communicating our Gender Pay Gap

We are pleased to share our Gender Pay Gap report. Gaucho falls well under the national average.

- 50/50 Upper Quartile by 2022 - at present 62.8% of our Upper Quartile are men, meaning we have opportunity to rebalance. We commit to a minimum of 1 female candidate shortlisted in 3, for every senior role.
- We will ensure that a minimum of 1 in 3 of all delegates on our leadership development courses are female.
- We will work to ensure our recruitment process at all levels has no unconscious bias through training and monitoring.
- We are establishing a women’s gathering to listen and better understand any barriers or needs of our female employees to close the gap and encourage more women into leadership.

Please see below the full findings of our Gender Pay Report. We confirm the data reported is accurate. In accordance with the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017, Gaucho is required to carry out Gender Pay Gap Reporting.
